EXPERIENCE

Junior Front-End Web Developer

Fiverr,
Remote.

Utilized HTML, CSS, and JavaScript to create 100+ responsive landing pages for both company and client.

Worked in an agile environment with weekly stand-ups, kept track of user stories/bugs in GitHub projects, and conducted 2 hours of sprint planning and sprint retrospectives per week. This process allowed production to increase by 45% while decreasing overall time invested by 20%. Participated in pair programming with 3 engineers, and reviewed the team's code to provide additional perspective and catch previously missed errors.

Back-End Developer Apprenticeship

PrimaSub,
Remote.

Assisted in building beautiful user interfaces for clients without compromising functionality for aesthetics. Implemented newly-learned front-end object-oriented programming to develop client server systems. Developed the database Learned and applied Agile methodologies and principles.

CAREER OBJECTIVE

Developer with a proven ability to collaborate effectively with senior developers while spending extra time to be mentored. Enjoy working closely with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary. With a passion for both personal growth and for software development, I attended a 1000+ hour coding bootcamp to learn new languages while sharpening existing skills. Ready to apply my passion for coding to a talented engineering team to develop quality solutions.

EDUCATION

Certification

Web Development

N.I.I.T

Bachelor of science

University of Port Harcourt

A-level

Ashgrove academy

Operations management

Alison
